Recommendation

We have used services from SIA Baltic Sales Agency (BSA) in our project to find representative/partner in France.

BSA was sourcing candidates, translated marketing material in french and sent info for potential representatives. Then they contacted them and prepared report plus analysis.

Based on analysis we selected most potential candidates and planned visit together. BSA organized meetings and schedule. In week 43 we visited France together and met candidates.

Project with BSA was very successful and we found right candidates. Now Clewer Europe is proceeding with top three candidates in commercial terms and in practical co-operation arrangements.

BSA has worked in very professional and active way. Co-operation has been very easy and effective.

I can recommend services of BSA for this kind of work.

Best regards,

Pasi Aaltonen
